Kyle Bush

Technical Writer • Instructional Designer • Technical Instructor

Fort Wayne, IN 46804 | (260) 615-1982 | bushkm01@gmail.com | kylebushwriting.com | linkedin.com/in/kylembush | github.com/bushmage

PROFESSIONAL SUMMARY

Over ten years of experience turning complex software, regulatory, and manufacturing systems into documentation and training that people can actually use. Equally comfortable authoring API and implementation documentation, building e-learning curricula in Articulate/ADDIE, or standing up a documentation and training function from scratch. Skilled in MadCap Flare, DITA/XML, HTML/CSS, GitHub, and Confluence for content, and Articulate 360/Storyline, Adobe Captivate, and Camtasia for instruction. Track record of simplifying FDA-compliant regulatory content for diverse audiences and cutting content redundancy by over 60% through consistent structure and reusable templates.

WORK EXPERIENCE

Principal Technical Writer (Contract) — Dana Incorporated, Fort Wayne, IN *12/2025 – 07/2026*

- Authored, edited, and published standard operating procedures and implementation documentation for production floor employees and management across all business units.
- Produced visual training documentation for machine operation and maintenance, including step-by-step image guides and recorded instructional material.
- Established documentation and training standards for a corporate education function that previously lacked structure, defining project scope and content organization from scratch.

Instructional Designer — Stryker, Fort Wayne, IN *01/2022 – 01/2025*

- Authored implementation and system administration guides for healthcare technology software supporting 500+ users.
- Developed FDA-compliant regulatory documentation, simplifying complex regulations into user-friendly content and training for diverse internal and client audiences.
- Partnered with SMEs and corporate leaders to streamline documentation, reducing content redundancy by over 60% and ensuring consistency across teams.

Instructional Designer — Vocera Communications, Fort Wayne, IN *10/2017 – 01/2022*

- Created user guides, course content, and end-user training workflows for patient management software supporting thousands of users.
- Designed a full library of documentation and course templates that enabled efficient, consistent content and course development for future software releases.
- Built training processes and a scalable framework for content creation for a newly formed corporate education team, coordinating work among peers.

Technical Writer — Extension Healthcare, Fort Wayne, IN *05/2015 – 10/2017*

- Authored, edited, and published diverse technical documentation, including engineering design specs, customer manuals, and internal knowledge base articles, supporting 300+ users.
- Developed the company's first interactive training module for its flagship mobile client, integrating a fully simulated application into an online course.
- Managed enterprise-wide documentation repositories, overseeing internal knowledge spaces and external training portals for 100+ team members.
- Completed 500+ documentation tickets in an Agile/Scrum environment, including content creation, revision, and peer-reviewed accuracy checks within single-sprint deadlines.

SKILLS & COMPETENCIES

Authoring & Documentation: MadCap Flare, Markdown, DITA/XML (Oxygen), HTML/CSS, API documentation, user guides, install & implementation guides, SOPs, Confluence

Instructional Design: Articulate 360, Articulate Storyline, Adobe Captivate, Camtasia, ADDIE/SAM, Bloom's Taxonomy, storyboarding, microlearning, LMS (Cornerstone, Litmos, Edubrite, Blackboard)

Technical: GitHub, Jira, Python, JavaScript, Ruby, C++, Regular Expressions, AI tooling (ChatGPT, AI voiceover), Adobe Photoshop

Domain & Process: Healthcare IT, EHR systems, HIPAA, FDA-compliant documentation, Agile/Scrum, peer review, accessibility (508, WCAG), manufacturing operations

EDUCATION

Indiana University — Bloomington, IN

Bachelor of Science, Informatics Studies | Bachelor of Arts, English Literature
